Dear Sir:

The Examiner has stated a Reasons for Allowance in the Notice of Allowability mailed March 14, 2005. Applicant agrees that the claims are allowable, but notes that the Reasons for Allowance only paraphrase claim language. Applicant also believes that other aspects of the claimed invention not specifically discussed in the Reasons for Allowance are also not taught or suggested by the prior art of record. Thus, the stated reasons for allowance should be interpreted as highlighting only some of the differences between prior art and the invention. As usual, the scope of the claimed invention should be based on all of the language of each of the allowed claims.
